WORK AND PROJECT EXPERIENCE

Optivide

Los Angeles

Software Developer Fellow

May 2026-Present

- Build cross-platform mobile app using React Native Framework with Google Cloud hosted backend and database. Integrated AI in spec-first development and code review along with Github actions producing quality code.
- Adhered to Express route-controller-service architecture and contract-first API.

ENXTI

Los Angeles

Lead Software Developer

December 2025-Present

- Integrate Shopify with GraphQL queries and develop custom MongoDB API endpoints for user management.
- Implement key features weekly, including webhooks logic configuration and UX redesign, preparing the MVP for user growth.
- Supervised a 5-person developer team for non-technical founders to build React Native app and Next.js webapp MVP using TypeScript with Stripe and Firebase integration.

LADOT

Los Angeles

GIS and Software Engineer Volunteer

September 2025-December 2025

- Administered object detection model training leveraging YOLO frameworks and increased all confidence scores above 90%.
- Developed reusable Python automation scripts and interfaced with Mapillary API to accelerate engineers' workflows by 20%.

TourScout

Los Angeles

Software Engineer Intern

June 2025-July 2025

- Revamped review button creation flow, allowing customization and real-time rating updates from the database, effectively automating the process and eliminating manual maintenance for the non-technical founder.
- Built an information visualization panel with multi-tenant CRUD ability and real-time updates, increasing retention rate by 40%.
- Designed secure Supabase database schemas, implementing row-level security to protect sensitive data.

Blu Bathworks

Vancouver

Project Management Intern

June 2023-August 2023

- Coordinated WordPress website project and reduced launch timeline by 4 months.
- Rebuilt product data pipeline with Python, normalizing 1K+ SKUs, cutting manual operations by 85%.
- Created 30+ WordPress tutorials for non-technical staff to maintain their website to save the costs of external developers.

LEADERSHIP EXPERIENCE

HackSC

Los Angeles

Executive Director

2023-2024

- Executed the USC's flagship hackathon with 300 participants, handling venue logistics, catering, and judging coordination.
- Led negotiations to secure \$50K in prize and sponsorship funding through consistent communication and quality event output.
-
